Commentary:

Q3 2019 saw 621 claims handled by CIGA, a decrease of 14% compared with the level experienced in Q2 2019. This last quarter represents the lowest of claims received by CIGA in the same period since 2016.

Water penetration still accounts for roughly 37% of claims being received and 12% accounted for claims where the homeowner made contact with CIGA but held no CIGA guarantee.

In Q3 CIGA successfully resolved 2266 claims with 11 claims going through the arbitration process. Of these 11, 1 was published whilst the other 10 are going through the process. During this same period 4 awards were published with 2 claims failing and 2 claims succeeding in part. Referrals to arbitration continue to be low. CIGA has made adjustments to its processes/procedures based on award decisions and a stringent internal case review process is in place before cases are referred to arbitration.
