### Commentary:

Q4 2022 saw 631 claims handled by CIGA, a small increase of 3.8% compared with the level experienced in Q4 2021.

Water Penetration accounts for roughly 36.7% of claims being received and 20% accounted for claims where the homeowner made contact with CIGA but held no CIGA guarantee.

In Q4 CIGA successfully resolved 420 claims with 4 claims going through the arbitration process. Of these 4, they are still going through the process. Referrals to arbitration continue to be low. CIGA has made adjustments to its processes/procedures based on award decisions and a stringent internal case review process is in place before cases are referred to arbitration.
